

SATYAM SINGH CHAUHAN

Frontend Developer | React.js | TypeScript | Redux | Tailwind CSS

Passionate Frontend Developer with almost 3 years of hands-on experience building responsive, high-performance web and mobile applications using React, Next.js, and TypeScript. Skilled in creating dynamic, scalable UI systems with Tailwind CSS and Material UI, integrating modern tools like Firebase, Capacitor, and Expo for cross-platform solutions. Proven ability to optimize page load performance, improve UI accessibility, and deliver pixel-perfect designs. Recognized with multiple awards for delivering impactful user experiences and driving project success in fast-paced environments.

WORK EXPERIENCE

Engineer - Software Development

Codeblock Technologies Pvt. Ltd. | Noida, IN

Nov 2022 – Aug 2025

- Developed and maintained high-performing React and Next.js applications with TypeScript, improving load time by up to 35%.
- Built reusable, responsive UI components with Tailwind CSS and Material UI, ensuring pixel-perfect consistency across devices.
- Integrated Firebase and REST APIs for real-time sync, authentication, and push notifications (FCM).
- Implemented SSR and SEO optimizations, increasing organic search visibility by 20%.
- Led cross-functional collaboration with design and QA teams, ensuring 100% on-time delivery of sprint goals.
- Mentored junior developers and contributed to component-driven architecture practices across projects.

🏆 Awards: Employee of the Month (2x) | Kudos Award for Technical Excellence

Frontend Developer Intern

Leads4Needs | May-Oct – 2022 (6 Months)

- Built and optimized responsive web interfaces using React.js and TypeScript.
- Collaborated with the design team to implement user-friendly UI components and enhance overall site performance.
- Gained hands-on experience with API integration, state management, and modern frontend best practices.

KEY PROJECT: UNIFIED LEARNING DASHBOARD

Tech Stack: React.js, TypeScript, Next.js, Redux Toolkit, Tailwind CSS, Firebase

- Built a fully dynamic learning analytics dashboard displaying user progress, streaks, and performance trends using real-time Firebase data.
- Designed modular components for performance tracking and adaptive rendering, reducing re-render overhead by 30%.
- Integrated SSR and SEO optimizations in Next.js to enhance load times and indexing speed.
- Led frontend development end-to-end, collaborating with backend and design teams to ensure consistent user experience across devices.
